Product Overview

The AX-POT is Front panel mounted setpoint control for the AX-PI & ET ranges. It allows the adjustment of the setpoint from a remote location. The control is mounted to a single gang plastic front plate.

Products Features

● Designed for the AX-PI & ET ranges

● Manufactured From Flame Retardant ABS

Product Specifications

Material:	VO Rated Flame Retardant ABS Single gang front plate toBS5733
Setpoint Ranges:	-4 to + 4°C, -20 to + 20°C, 0 to + 40°C
Potentiometer:	1 to 11KOhm
Terminals:	Rising Clamp for 0.5-2.5mm 2 Screened Cable
Maximum Cable Length:	100m
Ambient Temperature:	-10°C to +50°C
Dimensions:	85x85x20mm (max.)
Mounting Hole:	10mm hole for potentiometer
Country of Origin:	United Kingdom

Product Order Codes

AX-POT   External Setpoint Control

Installation:

Single Gang Pattress Installation. Screws are included. Two-Core cabling is required for connection.

Connections:

1-	Not Used
2-	Not Used
3-	Wiper common
4-	CW
5-	CCW
